

## Purpose of Recovery Initiative

- The purpose of the REP Recovery Initiative is to strengthen recovery capabilities within the REP community.
- FEMA THD HQ is able to support the development of various events through coordinated planning efforts and engagement with key stakeholders.

## Recovery Initiative Significance

- Aligns with the need for further emphasis on recovery planning to ensure a well-rounded preparedness effort
- Develops and improves relationships between agencies not typically engaged
- Directly supports three FEMA Strategic Priorities
  - Strategic Goal 1: Build a Culture of Preparedness
  - Strategic Goal 2: Ready the Nation for Catastrophic Disasters
  - Strategic Goal 3: Reduce the Complexity of FEMA

## Recovery Initiative Events

### Recovery Seminars

- Briefings/Presentations can be designed or tailored to the target audience and desired outcomes
- Facilitated discussion designed for specific topics with desired level of scenario detail
- Potential areas for discussion:
  - Economic Recovery
  - Housing
  - Operational Coordination
- Presentations can be coupled with high level discussions related to specific core capabilities
- Potential presentation topics:
  - USDA Panel
  - FEMA Response
  - Price Anderson Act

### Level of Planning:

**Low/Medium:** Level of pre-exercise engagement will depend on the desired areas for discussion and the level of scenario detail. Will require engagement with regional/state representatives for coordinating presenters, reviewing materials, developing scenario materials, and presenting/facilitating.

### Ingestion/Post-Plume Seminars

- Serves as a platform for discussing ingestion/post-plume concepts in advance of the ingestion exercise
- Can be coupled with additional training and presentations to serve as a federal outreach
- Initiative events can be tailored to meet the following ingestion pathway and post-plume phase drill activities:
  - Assessment of the impact on foodstuffs and agricultural products
  - Protective decisions for reentry, relocation, return, and reoccupancy
  - Foodstuffs/crop embargo
  - Dissemination of ingestion exposure pathway EPZ information to pre-determined individuals and business
  - Identification of the individual authorized to make decisions in the ingestion exposure pathway EPZ

### Tools Available

- Previous Seminar Presentations
- Recovery TTX Presentations Recovery
- Initiative Rolling Summary

### Available Support

- Subject Matter Experts
- Coordination assistance
- Preparatory event/seminar development support
- Administrative support

The purpose of this form is to begin the identification of recovery capabilities that can be strengthened through specific recovery-focused event(s), thus better informing the development process.

## Basic Information

Interested Jurisdiction(s): \_\_\_\_\_ Requested alternative approach: \_\_\_\_\_  
 Regional Point of Contact: \_\_\_\_\_ Email Address: \_\_\_\_\_ aa \_\_\_\_\_  
 Location of event: \_\_\_\_\_ aa \_\_\_\_\_ Timeframe of event: \_\_\_\_\_ a \_\_\_\_\_ Length of event: \_\_\_\_\_ a \_\_\_\_\_  
 Please briefly describe the desired outcome: \_\_\_\_\_

## Recovery Seminar

Identify the desired topics and/or objectives for discussion as they align to core capabilities.

Core Capability	Desired Topics/Objectives

## Ingestion/Post-Plume Seminar

Identify the desired drill topics and corresponding topic/objectives for discussion

Drill Topic	Desired Topics/Objectives

## Target Audience

What is the expected size of participation? \_\_\_\_\_  
 Please list expected participating organizations:

Local and State Agencies	Federal Agencies	Other Entities

## Presentation Topics

Select the desired presentation topics:

- Price Anderson Act    A-Team    State Presentation    FEMA Recovery    Other:  
 EPA/PAG Manual    USDA    FEMA Response    REPP 101

## Supplemental Planning Questions

If requesting in the Price Anderson Act presentation, has the Utility requested ANI attend? \_\_\_\_\_  
 Will this event be hosted as part of the Federal Outreach? \_\_\_\_\_  
 Will a scenario and/or mapping products be used to drive discussion?
