Exercise Issues (Level 2 Findings).....	22

Executive Summary

From June 27, 2023 – June 29, 2023, an ingestion exercise was conducted for the 50-mile Ingestion Planning Zone (IPZ) around the James A. FitzPatrick Nuclear Power Plant and was evaluated by the Federal Emergency Management Agency (FEMA), Region 2. The purpose of the exercise was to assess the level of State and local preparedness in responding to a radiological emergency. This exercise was held in accordance with FEMA's policies and guidance concerning the exercise of State and local radiological emergency response plans and procedures.

The most recent exercise at this site was conducted on June 21, 2023. The qualifying emergency preparedness exercise was conducted on September 15, 1981.

FEMA wishes to acknowledge the efforts of the many individuals in the State of New York who participated in this exercise. Protecting the public health and safety is the full-time job of some of the exercise participants and an additional assigned responsibility for others. Still others have willingly sought this responsibility by volunteering to provide vital emergency services to their communities. Cooperation and teamwork of all the participants were evident during this exercise.

The State, except where noted in this report, demonstrated knowledge of their emergency response plans and procedures and adequately implemented them. There were no Level 2 Findings and no Level 1 Findings identified as a result of this exercise.

Section 1: Exercise Overview

1.1 Exercise Details

Exercise Name	New York State Ingestion Exercise FY 2023
Exercise Dates	6/27/2023 – 6/29/2023
Scope	This exercise was an Ingestion, planned for 06/27/2023 to 06/29/2023 at James A. FitzPatrick Nuclear Power Plant - NY. Exercise play was limited to New York State.
Mission Area(s)	Recovery, Response
Core Capabilities	Critical Transportation, Environmental Response/Health and Safety, Health and Social Services, Housing, Mass Care Services, Natural and Cultural Resources, Operational Communications, Operational Coordination, Planning, Public Health, Healthcare, and Emergency Medical Services, Public Information and Warning, Situational Assessment
Objectives	Alert and Notification; Detect, Measure, Sample, Analyze, and Assess; Emergency Operations Management; Exposure Control
Threat or Hazard	Hazard
Scenario	See Section 2.1: Exercise Scenario
Sponsor	NONE
Participating Organizations	See Section 1.3: Participating Organizations

1.2 Exercise Planning Team Leadership

Federal Emergency Management Agency (FEMA)

Susan D.C. O'Neill

FEMA Region 2

1.3 Participating Organizations

New York State

- New York State Department of Health (NYSDOH)
- New York State Division of Homeland Security and Emergency Services (DHSES)
- New York State Field Monitoring Team (Blue)
- New York State Field Monitoring Team (Red)
- New York State Field Monitoring Team (White)
- New York State Joint Information Center (JIC)
- New York State Police
- New York State Wadsworth Lab

Section 2: Exercise Design Summary

2.1 Exercise Scenario

James A Fitzpatrick Nuclear Power Plant (JAFNPP) Radiological release

- General Emergency declared Wednesday June 21, 2023
- Wind from 16° @ 6.0 Miles per Hour
- Protective Action Decisions remain in effect
- Evacuate and implement the Potassium Iodide (KI) plan for all Emergency Response Planning Areas (ERPA) within the 2-Mile Emergency Planning Zone (EPZ)
- Evacuate and implement the KI plan for all ERPAs within the downwind 5-Mile EPZ
- All remaining ERPAs monitor and prepare
- Plume Terminated Wednesday June 21, 2023
- JAFNPP remains in cold shutdown
- JAFNPP has transitioned to recovery

New York State Response

- New York State Wadsworth Center Lab in Albany placed on stand-by at the Site Area Emergency June 21, 2023
- On June 21, 2023, Governor Kathy Hochul declared a State Disaster Emergency for Oswego County and contiguous areas
- Federal agencies responding to the New York State EOC are Federal Emergency Management Agency (FEMA), United States Department of Agriculture (USDA), United States Food and Drug Administration (FDA), United States Department of Health and Human Services (HHS), United States Environmental Protection Agency (EPA), United States Department of Energy (DOE), United States Nuclear Regulatory Commission (NRC), and the Centers for Disease Control (CDC). In addition, the United States Department of Energy (DOE) and the United States Environmental Protection Agency (EPA) had activated the Federal Radiological Monitoring Assistance Center (FRMAC).

Section 3: Analysis of Capabilities

3.1 Exercise Evaluation and Results

This section contains the results and findings of the evaluation of all jurisdictions and functional entities that participated in the James A. FitzPatrick Ingestion Exercise for the State of New York.

Each jurisdiction and functional entity was evaluated based on the demonstration of core capabilities, capability targets, critical tasks, and the underlying Radiological Emergency Preparedness criteria as delineated in the Federal Emergency Management Agency Radiological Emergency Preparedness Program Manual dated December 2019. Exercise criteria are listed by number, and the demonstration status of those criteria are indicated by the use of the following terms:

- **Met (M):** The jurisdiction or functional entity performed all activities under the objective/capability target to the level required per the work plan and/or the extent-of-play agreement, with no Level 1 or Level 2 Findings evaluated under that objective/capability target during the current activity and no unresolved prior Level 2 Finding(s).
- **Level 1 Finding (L1):** An observed or identified inadequacy of organizational performance during an assessment activity that could cause a determination that offsite emergency preparedness is not adequate to provide reasonable assurance that appropriate protective measures can be taken in the event of a radiological emergency to protect the health and safety of the public living in the vicinity of a Nuclear Power Plant (NPP).
- **Level 2 Finding (L2):** An observed or identified inadequacy of organizational performance during an assessment activity that is not considered, by itself, to adversely impact public health and safety.
- **Plan Issue (P):** An observed or identified inadequacy in the Offsite Response Organization (ORO)'s emergency plan/implementing procedures, rather than in that of the ORO's performance.
- **Not Demonstrated (N):** For a justifiable reason, the jurisdiction or functional entity did not perform assessment activities under the objective/capability target as specified in the extent-of-play agreement.
- **Not Applicable (N/A):** The objective/capability target does not apply to the jurisdiction.

3.2 Summary Results of Exercise Evaluation by Venue

Venue	Target	Core Capability	Status
Objective 1: Emergency Operations Management			
New York State Field Monitoring Team (Red) - Field Monitoring Team A	1.1	Planning, Operational Coordination	M
New York State Field Monitoring Team (White) - Field Monitoring Team 2	1.1	Planning, Operational Coordination	M
New York State Wadsworth Lab - New York State Wadsworth Lab	1.1	Planning, Operational Coordination	M
New York State Field Monitoring Team (Red) - Field Monitoring Team A	1.2	Planning, Public Information and Warning, Operational Coordination, Critical Transportation, Environmental Response/Health and Safety, Mass Care Services, Public Health, Healthcare, and Emergency Medical Services, Situational Assessment	M
New York State Field Monitoring Team (White) - Field Monitoring Team 2	1.2	Planning, Public Information and Warning, Operational Coordination, Critical Transportation, Environmental Response/Health and Safety, Mass Care Services, Public Health, Healthcare, and Emergency Medical Services, Situational Assessment	M
New York State Field Monitoring Team (Blue) - Field Monitoring Team B	1.2	Planning, Public Information and Warning, Operational Coordination, Critical Transportation, Environmental Response/Health and Safety, Mass Care Services, Public Health, Healthcare, and Emergency Medical Services, Situational Assessment	M

Venue	Target	Core Capability	Status
New York State Wadsworth Lab - New York State Wadsworth Lab	1.2	Planning, Public Information and Warning, Operational Coordination, Critical Transportation, Environmental Response/Health and Safety, Mass Care Services, Public Health, Healthcare, and Emergency Medical Services, Situational Assessment	M
New York State Division of Homeland Security Emergency Services - State Emergency Operations Center (EOC)	1.2	Planning, Public Information and Warning, Operational Coordination, Critical Transportation, Environmental Response/Health and Safety, Mass Care Services, Public Health, Healthcare, and Emergency Medical Services, Situational Assessment	M
New York State Department of Health - State Accident Assessment	1.6	Planning, Operational Coordination, Critical Transportation, Environmental Response/Health and Safety, Situational Assessment, Housing	M
New York State Division of Homeland Security Emergency Services - State EOC	1.6	Planning, Operational Coordination, Critical Transportation, Environmental Response/Health and Safety, Situational Assessment, Housing	M
New York State Department of Health - State Accident Assessment	1.7	Planning, Public Information and Warning, Operational Coordination, Critical Transportation, Environmental Response/Health and Safety, Health and Social Services, Housing, Natural and Cultural Resources	M
New York State Division of Homeland Security Emergency Services - State EOC	1.7	Planning, Public Information and Warning, Operational Coordination, Critical Transportation, Environmental Response/Health and Safety, Health and Social Services, Housing, Natural and Cultural Resources	M
Objective 2: Exposure Control			

Venue	Target	Core Capability	Status
New York State Field Monitoring Team (Red) - Field Monitoring Team A	2.2	Planning, Operational Coordination, Environmental Response/Health and Safety	M
New York State Field Monitoring Team (Blue) - Field Monitoring Team B	2.2	Planning, Operational Coordination, Environmental Response/Health and Safety	M
New York State Police - New York State Police	2.2	Planning, Operational Coordination, Environmental Response/Health and Safety	M
New York State Wadsworth Lab - New York State Wadsworth Lab	2.2	Planning, Operational Coordination, Environmental Response/Health and Safety	M
Objective 3: Alert and Notification			
New York State Field Monitoring Team (Red) - Field Monitoring Team A	3.1	Planning, Operational Coordination, Operational Communications, Situational Assessment	M
New York State Field Monitoring Team (White) - Field Monitoring Team 2	3.1	Planning, Operational Coordination, Operational Communications, Situational Assessment	M
New York State Field Monitoring Team (Blue) - Field Monitoring Team B	3.1	Planning, Operational Coordination, Operational Communications, Situational Assessment	M
New York State Police - New York State Police	3.1	Planning, Operational Coordination, Operational Communications, Situational Assessment	M
New York State Wadsworth Lab - New York State Wadsworth Lab	3.1	Planning, Operational Coordination, Operational Communications, Situational Assessment	M
New York State Joint Information Center - Joint Information Center	3.3	Planning, Public Information and Warning	M
Objective 4: Detect, Measure, Sample, Analyze, and Assess			
New York State Field Monitoring Team (Red) - Field Monitoring Team A	4.3	Planning, Environmental Response/Health and Safety	M

Venue	Target	Core Capability	Status
New York State Field Monitoring Team (Blue) - Field Monitoring Team B	4.3	Planning, Environmental Response/Health and Safety	M
New York State Police - New York State Police	4.3	Planning, Environmental Response/Health and Safety	M
New York State Wadsworth Lab - New York State Wadsworth Lab	4.4	Planning, Environmental Response/Health and Safety	M
New York State Department of Health - State Accident Assessment	4.6	Planning, Environmental Response/Health and Safety	M

Appendix A: Evaluation Team

Name	Organization
Candurra, Steven	FEMA Region 2
DeBonis, Michael	FEMA Region 2
Fumbanks, James	FEMA HQ

Malone, Kevin	FEMA Region 2
Robinson, Kevin	FEMA Region 2
Stoliarova, Janise	FEMA HQ

Appendix B: Extent of Play Agreement

**Off-Site Extent-Of-Play
For The
June 27, 2023 – June 29, 2023
Ingestion 2023
Functional Exercise**

Extent-Of-Play Ground Rules

- REAL LIFE EMERGENCIES TAKE PRIORITY OVER EXERCISE PLAY.
- The Scenario Development Team will develop the “Exercise” free play messages. The State Controllers will inject these messages for action as agreed upon.
- The State Controllers will provide radiological data for any radiological field activities (e.g., Field Teams, Emergency Worker Personnel Monitoring Centers, Reception Centers, etc.).
- According to the Radiological Emergency Preparedness (REP) Program Manual 2019 (page 176), “During the assessment activity, an evaluator who notes that an ORO did not correctly demonstrate activities for an objective/capability target eligible for redemonstration advises the appropriate controller, or another appropriate individual dependent on the type of assessment activity, of the issue. Participants may redemonstrate an activity that the ORO or FEMA determined was not performed satisfactorily only when the correction would not interrupt the flow of the assessment activity. The controller or other ORO personnel will retrain the staff that performed the activity incorrectly. Upon completion of the retraining, those staff will redemonstrate the activity. If the ORO demonstrates that activity adequately, the evaluation report will record the issue, but a follow-on statement will describe the corrective action demonstrated.” Re-demonstrations of any activity will be discussed and agreed upon between the State Controller and FEMA Evaluator as practicable for all activities/locations evaluated.

OBJECTIVE 1: EMERGENCY OPERATIONS MANAGEMENT

Capability Target 1.1: Mobilization

Individuals with roles in support of emergency operations are identified, alerted, and mobilized in a timely manner. (NUREG-0654/FEMA-REP-1, Rev. 2: A.1, A.1.a, A.1.b, A.3, A.4, A.5, C.1, C.2, C.2.a, C.2.b, C.3, E.1, E.1.a, E.3, F.1.c, H.6, and O.1)

Extent-of-Play Agreement

- Activities will be based on the OROs' plans and procedures as they would in an actual emergency.
- This capability target will be demonstrated during the JAF Plume exercise. (6/21/2023).

Capability Target 1.2: Direction and Control

Individuals in leadership roles provide direction and control to the portion of the overall response effort for which they are responsible. (NUREG-0654/FEMA-REP-1, Rev. 2: A.1, A.1.a, A.1.b, A.1.c, A.2, A.3, A.5, C.2, C.2.a, C.2.b, C.3, D.4, E.1, H.6, and O.1)

Extent-of-Play Agreement

- Activities will be based on the OROs' plans and procedures as they would in an actual emergency.
- This capability target will be demonstrated on Day #1 (6/27/2023), Day #2 (6/28/2023) and Day #3 (6/29/2023).

Capability Target 1.3: Protective Action Recommendations

Appropriate PARs are selected based on available information and factors. (NUREG-0654/FEMA-REP-1, Rev. 2: D.4, J.7, J.8, J.8.b, J.9, and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Capability Target 1.4: Protective Action Decisions for the Plume Phase

Appropriate PADs are based on available information for the plume phase. (NUREG-0654/FEMA-REP-1, Rev. 2: D.1.b, D.4, J.6, J.7, J.8, J.8.b, J.10, J.10.a, J.10.b, J.11.c-g, and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Capability Target 1.5: Protective Action Decision Implementation for the Plume Phase

Implement decisions for those populations and areas subject to plume phase protective actions. (NUREG-0654/FEMA-REP-1, Rev. 2: A.4, C.2.a, G.1, J.11, J.11.a, J.11.b, J.11.c, J.11.e, J.11.g, and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Capability Target 1.6: Protective Action Decisions for the Post-Plume Phase

Appropriate PADs are based on available information for the post-plume phase. (NUREG-0654/FEMA-REP-1, Rev. 2: J.12, J.14, J.14.a-f, M.1, M.1.b, M.4, M.5, M.6, M.7, M.8, and O.1)

Extent-of-Play Agreement

- All activities will be based on the ORO's' plans and procedures as they would in an actual emergency.
- This capability target will be demonstrated on Day #2 (6/28/2023) and Day #3 (6/29/2023).

Capability Target 1.7: Protective Action Decisions for the Post-Plume Phase

Implement decisions for those populations and areas subject to post-plume phase protective actions. (NUREG-0654/FEMA-REP-1, Rev. 2: C.2, J.12, J.14.a-f, M.1, M.1.b, M.5, M.6, M.7, M.8, and O.1)

Extent-of-Play Agreement

- All activities will be based on the ORO's' plans and procedures as they would in an actual emergency.
- This capability target will be demonstrated on Day #2 (6/28/2023) and Day #3 (6/29/2023).

OBJECTIVE 2: EXPOSURE CONTROL

Capability Target 2.1: Emergency Worker Exposure Control Decision-Making Process

A decision-making process involving consideration of appropriate factors and necessary coordination is used to ensure that an exposure control system is in place for emergency workers and includes the use of radioprotective drugs and procedures to authorize emergency exposures in excess of PAGs. (NUREG-0654/FEMA-REP-1, Rev. 2: C.2.c, H.11, K.2, K.2.b, K.3, K.3.a, M.1.b, M.8, and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Capability Target 2.2: Emergency Worker Exposure Control Management

Emergency workers manage radiological exposure and dose in accordance with the plans/procedures. (NUREG-0654/FEMA-REP-1, Rev. 2: C.2.c, H.11, H.11.b, K.2.b, K.3, K.3.a, M.1.b, and O.1)

Extent-of-Play Agreement

- Activities will be based on the ORO's plans and procedures as they would in an actual emergency.
- This capability target will be demonstrated on Day #1 (6/27/2023) and Day #2 (6/28/2023).

OBJECTIVE 3: ALERT AND NOTIFICATION

Capability Target 3.1: Communications

Communications processes, systems, and equipment are sufficient to support emergency operations. (NUREG-0654/FEMA-REP-1, Rev. 2: E.1.a, E.3, F.1, F.1.a, F.1.b, F.1.c, F.3, and O.1)

Extent-of-Play Agreement

- Activities will be based on the OROs' plans and procedures as they would in an actual emergency.
- This capability target will be demonstrated on Day #1 (6/27/2023).

Capability Target 3.2: Alert and Notification of the Public

Alert and notification of the public is completed in a timely manner. (NUREG-0654/FEMA-REP-1, Rev. 2: E.2, E.4, E.5, F.3, and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Capability Target 3.3: Emergency Information and Instructions for the Public and News Media

Accurate emergency information and instructions are provided to the public and the news media in a timely manner. (NUREG-0654/FEMA-REP-1, Rev. 2: E.2, E.4, E.5, G.1, G.2, G.3, G.3.a, G.4, G.5, and O.1)

Public Instruction and Emergency Information

Extent-of-Play Agreement

- The NYS PIO will demonstrate either pre-distributed public information material in the ingestion exposure pathway EPZ or the capability for rapid reproduction and distribution of appropriate reproduction-ready information and instructions to predetermined individuals and business.
- Activities will be based on the ORO's' plans and procedures as they would in an actual emergency.
- This capability target will be demonstrated on Day #2 (6/28/2023) and Day #3 (6/29/2023).

OBJECTIVE 4: DETECT, MEASURE, SAMPLE, ANALYZE, and ASSESS

Capability Target 4.1: Field Monitoring Teams Management

FMTs are managed to obtain information to help characterize the release, locate and track the airborne radiological plume, and control contamination. (NUREG-0654/FEMA-REP-1, Rev. 2: H.11, H.13, I.5, I.6, I.9, I.10, M.7, M.8, and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Capability Target 4.2: Plume Phase Measurements and Sampling

FMTs are managed to obtain information to help characterize the release, locate and track the airborne radiological plume, and control contamination. (NUREG-0654/FEMA-REP-1, Rev. 2: H.9, H.11, H.11.a, H.11.b, H.12, H.13, I.2, I.5, I.6, I.7, I.8, I.9, I.10, and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Capability Target 4.3: Post-Plume Phase Measurements and Sampling

FMTs take measurements and samples to support assessment of the ingestion exposure pathway and to support reentry, relocation, and return decisions. (NUREG-0654/FEMA-REP-1, Rev. 2: H.11, H.11.a, H.11.b, H.12, H.13, I.2, I.5, I.6, I.8, M.7, and O.1)

Extent-of-Play Agreement

- One State field team member per team will demonstrate proper donning, usage and removal of protective clothing at the respective dispatch location at an appropriate time. If necessary, an inject message from the State Controller may be used to complete this demonstration prior to the end of the exercise. Teams will not be required to wear PPE during the exercise except that initial use of gloves by all teams will be demonstrated. Additional protective clothing supplies will be available for inspection.
- Sample locations will be chosen independent of the plume footprint to allow advance scheduling with farms.
- Eating, drinking, and smoking will be allowed after concurrence of the FEMA evaluator.

- The State will dispatch 3 teams to collect one sample of each; water, milk, fresh fruit/vegetables, leafy vegetation, soil particulate, and air samples to enable an adequate assessment of the ingestion pathway decisions.
- Sample transfer will be demonstrated between one sample team and one NYS Police representative, and the Chain of Custody forms should be completed by the collecting team. Discussions on all necessary transport activities will be conducted at the sample transfer location. Actual transport will be simulated.
- The teams will be integrated teams consisting of NYSDOH and NYS AGM. Other federal and state agencies may participate as necessary on the teams.
- The use of silver zeolite cartridges will be simulated, and charcoal cartridges will be used. However, the silver zeolite cartridges will be available at the dispatch point of kit.
- The Field Sampling Teams will be provided drivers from NYS OEM to drive OEM vehicles. These drivers are not part of the sampling teams and will not be part of the evaluation.
- Sampling of milk and produce will be simulated with commercially purchased products if the farm does not have the appropriate materials because of harvest and/or daily milk collection by the dairy.
- Activities will be based on the OROs' plans and procedures as they would in an actual emergency.
- This capability target will be demonstrated on Day #1 (6/27/2023).

Capability Target 4.4: Laboratory Operations

The laboratory performs radiological analyses to support protective action decision-making. (NUREG-0654/FEMA-REP-1, Rev. 2: C.4, H.11, H.11.b, H.13, I.2, I.6, M.7, and O.1)

Extent-of-Play Agreement

- The State lab performance will be demonstrated out of sequence and independent of other scenario activities.
- The lab demonstration will begin with delivery of samples to the loading dock. The delivery will contain a minimum of two samples of the following: water, milk, fruits/ vegetables, leafy vegetation, soil particulate filters and air sample cartridges. Samples must have appropriate paperwork including Chain of Custody forms.
- The NYS lab shall demonstrate communication (i.e., email to assessment) of the sample results to the State EOC. Data will be provided for the simulated contaminated samples.
- All activities will be based on the OROs' plans and procedures as they would in an actual emergency.
- This capability target will be demonstrated on Day #2 (6/28/2023).

Capability Target 4.5: Plume Phase Analysis and Dose Assessment

Dose assessment considers all available information including plant conditions, environmental conditions, field monitoring data, sample analysis results, and dose projection calculations. (NUREG-0654/FEMA-REP-1, Rev. 2: A.3, H.13, I.6, I.8, I.10, K.3, and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Capability Target 4.6: Post-Plume Phase Sampling Plan Development and Analysis

Post-plume phase assessment considers all available information, including environmental conditions, field monitoring data, sample analysis results, and dose projection calculations. (NUREG-0654/FEMA-REP-1, Rev. 2: A.3, H.13, I.2, I.6, I.8, I.10, J.12, J.14.b, J.14.c, K.3, M.7, M.8, and O.1)

Extent-of-Play Agreement

- Actions such as recommendations to place milk animals on stored feed and use of protected water supplies will be demonstrated during the JAF plume exercise on 6/21/2023.
- Any decisions will be communicated and, to the extent practical, coordinated with neighboring OROs during the Functional/Tabletop exercise. If the effected counties do not participate, those communications will be simulated.
- Demonstration of plans and procedures for tracking agricultural products entering and leaving the EPZ will be conducted through interview.
- Activities will be based on the OROs' plans and procedures as they would in an actual emergency.
- This capability target will be demonstrated on Day #2 (6/28/2023).

OBJECTIVE 5: OPERATE

Capability Target 5.1: Monitoring, Decontamination, Sheltering, and Registration of Evacuees

Facilities, equipment, and procedures are in place and utilized to provide monitoring, decontamination, identification, temporary shelter, congregate care, and registration of evacuees. (NUREG-0654/FEMA-REP-1, Rev. 2: J.11.d, J.13, K.4, and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Capability Target 5.2: Monitoring and Decontamination of Emergency Workers, Equipment, and Vehicles

Facilities, equipment, and procedures are in place and utilized to provide monitoring and decontamination of emergency workers and their equipment and vehicles. (NUREG-0654/FEMA-REP-1, Rev. 2: K.4 and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Capability Target 5.3: Transportation and Treatment of Contaminated, Injured Individuals

Transport contaminated, injured individuals to medical facilities with the capability to monitor and decontaminate. (NUREG-0654/FEMA-REP-1, Rev. 2: C.2.d, F.2, H.11, H.12, J.2, K.3, K.4, L.1, L.3, L.4, and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Capability Target 5.4: Traffic and Access Control

Appropriate traffic and access control is established; accurate instructions are provided to traffic and access control staff. (NUREG-0654/FEMA-REP-1, Rev. 2: H.12, J.8, J.8.b, J.10, J.10.a, J.11.c, J.11.e, J.11.f, J.14.d, J.14.e, M.1.b, and O.1)

Extent-of-Play Agreement

NOT DEMONSTRATED DURING THIS EXERCISE

Exercise Issues (Level 1 Findings)

- No issues were reported during the New York State Ingestion Exercise.

Exercise Issues (Level 2 Findings)

- No issues were reported during the New York State Ingestion Exercise.

END OF REPORT
