

FEMA

February 28, 2022

Kevin Guthrie, Director
FL Division of Emergency Management
2555 Shumard Oak Boulevard
Tallahassee, Florida 32399-2100

Dear Mr. Guthrie:

Florida's certification for Radiological Emergency Preparedness with regard to the St. Lucie and Turkey Point Nuclear Power Plants for calendar year 2021 is approved.

Our FEMA Site Specialist has reviewed your supporting documentation and will coordinate technical assistance visits with your staff to resolve any potential questions.

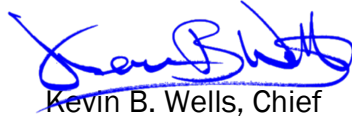

Following the successful St Lucie hostile action-based exercise on February 8th, we look forward to continuing our collaborative working relationship to ensure the appropriate emergency preparedness and response capabilities are maintained in the State of Florida and those counties surrounding the St Lucie and Turkey Point Nuclear Power Plants.

Kevin Guthrie, Florida State Director-ALC
