MAR 15 2013

John Wiejorek
Chief, Radiological Preparedness Unit
Preparedness Branch
California Emergency Management Agency
3650 Schriever Avenue
Mather, CA 95655

Reference: Annual Letter of Certification

Dear Mr. Wiejorek:

Thank you for providing us with the information necessary to complete our review of the February 13, 2013 submittal of the Annual Letter of Certification for the state of California Radiological Emergency Preparedness (REP) Program.

This submittal, along with the assertion that all requisite activities have been undertaken or completed, as appropriate by state and local organizations, meets the intent of Section C of the U.S. Department of Homeland Security's Federal Emergency Management Agency (FEMA) Guidance Memorandum PR-1, Policy on NUREG-0654/FEMA REP-1 and 44 Code of Federal Regulations (CFR) 350.5. Guidance Memorandum PR-1 is incorporated in the FEMA REP Program Manual as of October 2011.

FEMA Region IX REP, in cooperation with your staff, has reviewed submitted documentation for Diablo Canyon Power Plant (DCPP), San Onofre Nuclear Generating Station (SONGS), and the state of California. Utilizing the planning standards set forth in NUREG-0654/FEMA REP-1 and the FEMA REP Program Manual, April 2012, all requirements for the 2012 annual review have been satisfied.

Please contact Alberto Sifuentes directly at (510) 627-7108, if you have any questions or require.

Sincerely,

A handwritten signature in dark ink, appearing to read "Richard Grundstrom", written over a horizontal line.

Richard Grundstrom
Regional Assistance Committee Chair
