Dear Agencies:

Attached are electronic copies of California's 2015 Periodic Requirements and Annual Letter of Certification (ALC) Report related to the Diablo Canyon Power Plant (DCPP) and the San Onofre Nuclear Generating Station (SONGS).

The report is in three parts:

1. Joint California Governor's Office of Emergency Services (Cal OES) and California Department of Public Health (CDPH) Report;
2. DCPD Report; and the
3. Interjurisdictional Planning Committee (IPC) Report for the SONGS.

Enclosures referenced in the ALC are only provided to the FEMA Region IX, Regional Assistance Committee (RAC) Chairman with California's 2015 ALC package. FEMA requires hard copies of specific supporting documentation and emergency public education/information materials provided by NPP agencies such as brochures, annual publications, decals, posters, etc.

If you have any questions, please contact me by phone or e-mail. Thank you all for your support and hard work.

Sincerely,
Cindy
