Okay, thank you Alberto.

Paul Hoffer wasn't on the call. He had a conflicting training class. So that's why I said it had to be Paul Anderson. 😊

Hello Cindy and Paul.

Yes, the template you forward is the correct one for this year.

As for the supplement guide- it has additional info for COVID 19. So as this is new, supplemental guide, let's work together to avoid any speed bumps or delays to submission. As soon as a question should arise, let us know.

As for any comments from all parties listed - yours is the first inquiry. But as stated above - expect some within the next couple of months.

I am assuming that you got the 2020 supplemental guide from September. But let's not assume.... It's attached.

Lastly, as far as I recall from Wednesday's coordination call there was only one Paul (Hoffer) on. Unfortunately, his comment was spoken over so I have no clue either.

Regards,

Alberto Sifuentes

Subject: RE: Annual Letter of Certification (ALC) Supplemental Guidance 2020

Hi Alberto,

I'm preparing to meet with Mike Warren and Paul Hoffer on Monday to discuss the 2020 ALC. We anticipate that Angela Beane will be unavailable for this process, since she is still currently assigned to contract tracing. I believe Paul and I will be working together on the 2020 ALC. ☺

Can you please confirm that the attached template is the ALC Checklist referred to in the ALC Supplemental Guidance 2020? Also, can you share what feedback you may have received from the County, CDPH and/or PG&E on the Supplemental Guidance, if any?

As I mentioned during the DCPD Coordination Call this week, we're planning to send an ALC information request letter to our NPP partners next week. Do you know what Paul Andersen said on the call right after I mentioned the Supplemental Guidance? I didn't hear it clearly, but thought Paul Hoffer was the one who commented, so when I asked him about it he let me know it wasn't him. Ugh...awkward! Haha...

I'm grateful for your help.

Thank you.

Subject: FW: Annual Letter of Certification (ALC) Supplemental Guidance 2020

Good afternoon.

The attached ALC supplemental guidance (SG) was sent out today from FEMA REP HQ.

I wanted to expedite sending this to you for review/comment prior to next week's virtual workshop.

The ALC SG incorporates considerations for the ongoing COVID 19 public health emergency and impacts to preparedness activities/training in the remaining 2020 calendar year.

Additionally, the intent of the ALC SG is to provide an actionable, understandable and consistent process for handling delays or gaps in the 2020 ALC submissions.

Once you've had chance to review the SG, please contact us with any questions or concerns. As always, your constructive feedback is instrumental in the successful rollout of this SG.
