

FEMA

July 11, 2024

Mr. Mark Reese
Nuclear Emergency Program Coordinator
Nuclear Safety and Energy Emergency Program Division Oregon Department of Energy
550 Capital Street Northeast Salem, Oregon 97301-3737

Dear Mr. Reese:

The Oregon State report on the Periodic Requirements and Annual Letter of Certification dated January 31, 2024, for calendar year 2023, is hereby approved. The State of Oregon and the affected local jurisdictions' response plans, drills, and preparedness measures provide reasonable assurance that appropriate measures can be taken to protect the health and safety of the public in the event of a radiological emergency. Therefore, 44 CFR Part 350 approval of the offsite radiological emergency response plans and preparedness for the State of Oregon, site-specific to the Columbia Generating Station, will remain in effect.

The review was conducted in accordance with 44 CFR 350.5, NUREG-0654/FEMA-REP-1 and the 2019 FEMA Radiological Emergency Preparedness Program Manual. If you have any questions, please feel free to contact Janise Stoliarova, the FEMA Region 10 Regional Assistance Committee Chair (acting) at 202-924-0344, or at janise.stoliarova@fema.dhs.gov

Sincerely,

Willie G. Nunn
Regional Administrator
